OBJECTIVE

As a dedicated Cloud/DevOps Engineer, I aim to leverage my expertise in Azure DevOps Services, CI/CD, Infrastructure as Code (IaC), and cloud-based solutions to streamline software development processes. I am committed to optimizing infrastructure, enhancing security and compliance, and driving automation to deliver robust, scalable, and efficient systems. My goal is to contribute to innovative projects that prioritize collaboration and continuous improvement in a dynamic environment.

SKILLS

- | | |
|----------------------------|----------------|
| • Azure DevOps | - Intermediate |
| • Terraform | - Intermediate |
| • Azure Kubernetes Service | - Intermediate |
| • Helm Charts | - Intermediate |
| • Git | - Intermediate |
| • Istio | - Intermediate |

CERTIFICATIONS

Microsoft Certified: DevOps Engineer Expert

Credential ID: D212325DA8106C6B

2023 - 2025

EDUCATIONAL BACKGROUND

Southwestern University of Cebu	
Sambag2 Urgello St., Cebu, Philippines	College
Bachelor of Science in Information Technology	2009 – 2013

PERSONAL DETAILS

Provincial Address	Pobl. 4, Paranas W. Samar
Date of Birth	November 03, 1992
Age	31
Sex	Male
Civil Status	Single
Nationality	Filipino

WORKING EXPERIENCE

AEVEN – Advanced Cloud Engineer Feb 2024-Present

- Managed CI/CD Pipelines: Developed and maintained automated CI/CD pipelines using Azure DevOps.
- Infrastructure as Code (IaC) Implementation: Successfully implemented IaC with ARM Templates and Terraform, enabling consistent, repeatable infrastructure deployments and reducing manual errors.
- Security and Compliance: Implemented best practices for cloud security, including Azure Firewall policies, identity management, and compliance monitoring, ensuring adherence to industry standards and regulations.
- Monitoring and Performance Optimization: Integrated Azure Monitor and Application Insights to proactively identify and resolve performance bottlenecks.
- Collaboration and Leadership: Collaborated with cross-functional teams to align cloud strategies with business objectives, mentoring junior engineers and driving continuous improvement initiatives.

Reed Elsevier Philippines – Azure DevOps Engineer

Jul 2023 - Feb 2024

- Developed and Optimized CI/CD Pipelines: Designed and implemented CI/CD pipelines using Azure DevOps, reducing deployment time by 50% and increasing release frequency.
- Infrastructure Automation: Automated the provisioning of infrastructure using ARM Templates and Terraform, improving deployment consistency and reducing infrastructure provisioning time.
- Containerization with Docker and Kubernetes: Implemented containerization strategies, using Docker and orchestrating workloads with Kubernetes, to support scalable, resilient, and isolated environments.
- Security and Compliance Automation: Integrated automated security checks and compliance validation into the CI/CD pipeline, ensuring adherence to regulatory requirements and minimizing security vulnerabilities.
- Collaboration and Process Improvement: Worked closely with development, QA, and operations teams to streamline workflows, implement DevOps best practices, and foster a culture of continuous integration and delivery.

NEXTIX INC – Systems Engineer

Nov 2016 - Jun 2023

- Create and manage CI/CD pipelines to build and deploy services.
- Maintain a centralized source code repository.
- Implement and maintain continuous integration and release automation of projects.
- Supports the Development/Test team debug build and runtime errors o Observe, secure, control, and troubleshoot the traffic within the network of microservices.
- Manage certificates using cert-manager o Maintain IAC codes in a git repo.
